## KARPEL'S CONFESSION BASED ON THE ZUCHOVICKI LETTER

The letter with Karpel's response to the Zuchovicki complaints was in most part the usual expected excuses. His response was full with the things that are to come. The question we have is: Why did we not prevent the disaster? We had plenty of complaints the day the courses were opened to members. Did we forget about all of the complaints from the members that used fictitious names but meant what they said? [www.delairegovernance.com](http://www.delairegovernance.com) was "the" creation to let the members see, by actual pictures, the conditions and the problems.

The following paragraphs of Karpel's response to Zuchovicki are the only worth noting. Excuses and things to come have no value, **been there done that!**

Mario,

"I read your correspondence several times and must say that I am in agreement with much of what you state. Your remarks are made with the best intentions for our Club and I appreciate that."

"I agree with you that the original renovation plan called for an excessive amount and use of pine straw in areas adjacent to the respective golf holes. That issue has been addressed in the beautification process since we are sodding significant areas with grass and planting trees and other foliage to minimize the appearance of the pine straw. Significant areas of pine straw have been eliminated."

"Finally, I can appreciate your position with regard to our superintendent and our manager. It serves no point to discuss those issues with you expect for the knowledge that those individuals realize that the beautification project must be timely completed to the membership's satisfaction."

"Again, I want to thank you for contacting me about **the stated position of a significant portion of our membership**. I, like every Board member, wants input and suggestions from individual members whether that input be positive or negative. **I personally appreciate any comments from any member on any topic, and I will always try to respond.**"

Mr. Karpel, You personally navigated a 1-year suspension for Manny Brecker for his input and suggestions - Is that appreciation? Or just another of your lies? What happens when Brecker responds as we all know he will? Are you going to pay for those cost, or does that become just another expense to all of us? Zuchovicki is right in his statement ***“ Remove the parties responsible for the failures”***.
